

FIRST M. LAST

123 BLANK ST., SAN FRANCISCO, CA 94104 • 555.555.1234 • FIRST.M.LAST@EMAIL.FAKE

STATEMENT OF PURPOSE

First, I believe that this nation should commit itself to achieving the goal, before this decade is out, of landing a man on the moon and returning him safely to the earth. No single space project in this period will be more impressive to mankind, or more important for the long-range exploration of space; and none will be so difficult or expensive to accomplish.

- It has been said that astronomy is a humbling and character-building experience.

- Our posturings, our imagined self-importance, the delusion that we have some privileged position in the Universe, are challenged by this point of pale light.

- In our obscurity, in all this vastness, there is no hint that help will come from elsewhere to save us from ourselves.
